## SEE OTHER SOLUTIONS

A blind champion yachtsman and entrepreneur challenge's you to reassess your thought process. **Vince Morvillo** affirms the fact that **anything is possible**. In his experience, it's not sight that builds successful companies or enables you to succeed, compete and win; its understanding that "what is, is not all there is nor can be."

Vince is a professional speaker, who gives his audience a unique tool, and teaches them how to use it to redirect their thought process to see other solutions. The result is that teams learn how to move away from convention and see other solutions in order to develop successful outcomes, or to meet personal challenges. The challenge of blindness made it necessary to approach situations in a non-conventional way. Using this process he excelled in his business and personal life accomplishing feats that others thought "unimaginable" for a blind person.

As an example, meeting the challenge of blindness, he also learned to drive a racing sailboat to both World and National Championships. His unique approach guided him to, without financial support, develop a large yacht sales organization, and become the top sales producer for a large international corporation.

Vince's motivational, inspiring, and engaging presentation will touch you and leave you with the tool to redirect thought process to non-conventional solutions resulting in . . .

- ❖ How to meet challenges head on and to prosper from them
- ❖ Increased productivity
- ❖ Increased employee retention
- ❖ Positive solutions by eliminating negative why not's
- ❖ Training to achieve your visions
- ❖ An understanding "that what is, is not all that there is nor can be"

"Wow-Do I feel honored to be involved with such a worthwhile cause. I enjoyed every aspect of Vince's talk and when he said that people with disabilities see solutions, not problems: he was right on the mark. Although Mr. Morvillo does not have *sight* as we know it, he sure has an incredible *insight*. In my view, Vince is a *natural* public speaker who keeps his audience enthralled because he speaks from the heart
